7. FINANCE (Lipman (Chair), Hamel, Cheney)

7.A. Request to increase Sanitary Sewer rates beginning February 1, 2023

The Finance Subcommittee has met several times recently on the request to increase Sanitary

Sewer rates. At their most recent meeting on December 27, 2022 the Committee requested an updated spreadsheet reflecting a proposal for Sanitary Sewer Fund rate adjustments to meet operating needs through FY33. That updated spreadsheet is attached for the Committee members' review.

The plan includes bonding 3 separate bonds at 3 million dollars each and they would be bonded every 3 years for a total of 9 years.

Manager Beattie said if the committee is happy with this plan then during then during the committee reports at the council meeting, they can vote to send it to public hearing.

7.B. Parking options requested by Scott Everett for his property in Lakeport at 51 Elm Street

Developer Scott Everett, Paugus Properties, LLC, requested that the City Council explore parking options in connection with his development at 51 Elm Street in Lakeport. The project, scheduled to open in the spring of 2023, will consist of a 40,000 plus sq.ft. building which will feature covered parking, condominiums and first floor retail shops as well as co-working spaces. At the City Council meeting on December 27, 2022 Mr. Everett reviewed his proposal. The Council scheduled a Public Hearing on this matter for this evening's regular City Council meeting and requested that the Finance Subcommittee review this matter prior to that Public Hearing.

Councilor Lipman would like to see a written agreement that includes maintenance of the spaces like plowing and salting/sanding.

Councilor Lipman gave examples of parking arrangements the Council has made with the Colonial and the parking on Church Street in front of the Laconia Spa and the old police station. The committee is leaning towards an agreement that is not like the one with the colonial condo owners.

Councilor Soucy stated the time allotment requested from 9am to 10 pm seems to be a bit much.

The committee would like to see turnover in the spaces, they don't feel that all the lots should be timed at the same time.

Manager Beattie mentioned he sent out some talking points to the Committee members late this afternoon, the committee members said they did not have time to review them prior to the meeting.

Councilor Soucy questioned the number of ADA spots are needed and if the leasee will be taking care of it. Manager Beattie said that would have been taken care of when the plan went through the Planning Department.

Councilor Cheney mentioned the need for enforcement of the timed spaces.

Manager Beattie said that the committee should wait to hear what comes up at the public hearing tonight, then have the Council discuss it.

8. Any other business that may come before the Committee

9. ADJOURNMENT

Chairman Lipman adjourned the meeting at 6:25 PM

Respectfully submitted,

Katie Gargano, City Clerk
